SKILLS

- ❖ **Backend:** Java, Spring Boot, .NET
- ❖ **Frontend:** React, AngularJS, HTML, CSS, Bootstrap 4
- ❖ **Databases:** PostgreSQL, MySQL, SQL Server
- ❖ **Version Control:** Git

EDUCATION

- Bachelor of Computer Application | Kathford International College Of Engineering and Management *2022-Present (Expected 2027)*
- XII (NEB) | Ambition Academy *GPA:3.29 | 2021*

WORK EXPERIENCE

- ❖ **.NET Intern | Dynamic Technosoft Pvt. Ltd.** *31st March, 2026 – 30th Jun, 2026*
 - Contributed to the development of a centralized NGO/INGO registration and project tracking platform using ASP.NET MVC, AngularJS, Bootstrap 4, and Microsoft SQL Server.
 - Developed full-stack features including CRUD operations, business logic, form validations, database integrations, and responsive user interfaces.
 - Collaborated in an Agile development environment using Git, participating in feature development, testing, debugging, and application maintenance.

ACADEMIC PROJECTS

- ❖ **Local Event Finder — Event Discovery & Management Platform | Github**
 - Developed a scalable RESTful backend using Spring Boot, enabling event discovery, ticketing, and community management.
 - Implemented secure authentication and authorization using Spring Security, JWT, RBAC, and BCrypt.
 - Integrated Khalti and eSewa payment gateways, QR-based ticketing, and location-aware event search using PostgreSQL and JPA/Hibernate.
- ❖ **ReliefKart – Disaster Relief E-Commerce Platform | Github**
 - Built a full-stack platform enabling users to browse, purchase, and manage emergency supplies.
 - Developed scalable backend APIs with Spring Boot, including secure authentication, product management, and order processing.

ACHIEVEMENTS

- Public Choice Award – CodeFest 2024 Hackathon

HOBBIES

- Gaming, Reading, Exploring new technologies
