EXPERIENCE

Rejuve Labs

Associate Backend Engineer

Aug 2026 – Present

Kathmandu, Nepal

- Rebuilt the platform backend as a modular monolith on **ASP.NET Core 10, EF Core and PostgreSQL**, migrating from Dapper to code-first EF Core across 6 modules (auth, courses, enrollments, employee portal, services, feedback)
- Implemented authentication with **ASP.NET Identity**: JWT access tokens, rotating HttpOnly refresh cookies, Google/Facebook OAuth, token-based password reset and email verification, role-based access and rate limiting
- Built an employee attendance and HR portal with multi-session punch-in/out, IP and geolocation capture, leave approvals, notices, holidays, admin corrections and a full audit log
- Generated verifiable course certificates as PDF and PNG from HTML templates using **Playwright** (headless Chromium)
- Shreevas (e-commerce)**: built backend APIs with ASP.NET Core, EF Core and PostgreSQL, and an inventory-system integration with background stock and catalog sync, idempotent oversell-proof sales, billing sync and SSO
- Built a responsive image pipeline (WebP variants, srcset) to speed up image loading on mobile
- Deployed services with **Docker, nginx and GitHub Actions CI/CD** on a Linux VPS with Let's Encrypt TLS and automatic database migrations

Dynamic Technosoft Pvt. Ltd.

.NET Intern

Mar 2026 – Jun 2026

Kathmandu, Nepal

- Developed features for a centralized NGO/INGO registration and project tracking platform (ASP.NET MVC, AngularJS, SQL Server) used by 50+ organizations
- Built CRUD workflows, business logic and server-side validation across 10+ modules; wrote SQL queries and stored procedures for reporting
- Worked in an Agile team with Git, code reviews and daily stand-ups; tested and debugged existing modules

PROJECTS

Local Event Finder — Event Discovery & Ticketing

Live | GitHub

Java, Spring Boot, Spring Security, PostgreSQL, JPA/Hibernate, JWT

- REST backend with 20+ endpoints; JWT authentication with role-based access and BCrypt hashing
- Khalti and eSewa payments with QR-based ticket check-in; location-aware event search with PostgreSQL spatial queries

ReliefKart — Disaster Relief E-Commerce

GitHub

Java, Spring Boot, React, PostgreSQL, Tailwind CSS

- Full-stack store with a layered REST API (Controller → Service → Repository) and a React SPA
- eSewa and Khalti payments with HMAC-SHA256 signature verification

EDUCATION

Kathford International College of Engineering and Management

Bachelor of Computer Application (BCA)

2022 – 2027 (expected)

Kathmandu, Nepal

- Public Choice Award – CodeFest 2024 Hackathon

SKILLS

- Backend**: C#, ASP.NET Core, Entity Framework Core, ASP.NET Identity, Dapper, Java, Spring Boot
- Databases**: PostgreSQL, Microsoft SQL Server, MySQL
- DevOps**: Docker, nginx, GitHub Actions (CI/CD), Linux VPS, Let's Encrypt
- Frontend**: React, AngularJS, HTML, CSS
- Other**: REST API design, JWT/OAuth, Playwright, Git

CERTIFICATIONS

- DevOps in the Cloud**: AWS (EC2, S3, RDS, Lambda, IAM, VPC, CloudWatch), Kubernetes, CI/CD
- Front End Development**: React, Figma · **Version Control**: Git & GitHub
